Energetic and self-motivated, I'm seeking an internship in web development to learn and grow under the guidance of experienced professionals. With a strong passion for technology, I am committed to gaining practical experience and expanding my skills. I bring enthusiasm, dedication and a team-oriented mindset to contribute and learn from seniors in a web environment.

E-Comm Website

An e-commerce website built using the MERN stack—MongoDB, Express.js, React.js, and Node.js offers a full-featured online shopping platform. This application enables seamless browsing, searching, and purchasing of products. The website includes essential e-commerce features like user authentication, product listings, shopping cart, payment integration, and order tracking, delivering a comprehensive solution for online retail.
